

Digital Innovation for Sustainability & Resilience

06/28/2022 | Muffatwerk Munich

What? Tech Days drive digital innovation by connecting and stimulating exchange between industry experts, founders, researchers, scientists and artists.

- Digital Innovation Forum: expert insights and exchange
- Connecting creative start-ups with established corporations
- Cross-industry exchange offering best practice industry insights
- show-casing the latest trends and topics in the digital
- Creating an open and positive, lively atmosphere
- Involving the relevant digital drivers and industry platforms
- Being practical and hands-on

How? Tech Days combine different formats to create a unique and sparkling festival for digital innovation in the heart of Munich.

- Key notes by industry and political leaders
- Panel talks and discussions
- Workshops
- Tech-Exhibition and Demo Space
- Digital Art Live Performances
- Tech-Pitches by start-ups
- Unique location at Muffatwerk with historic art nouveau architecture

Who: ...to expect at Tech Days:

- Managers with roles in innovation & strategy
- Scientists from academic and industrial research
- Industry experts from various fields
- Decision makers from the corporate world
- Tech founders, entrepreneurs, start-ups
- Innovation mediators
- Digital natives
